IFC's Flagship Program Aims to Boost Women's Employment in India

To help recruit, retain, and promote more women across India's private sector, IFC today launched the India Gender Collaborative. The 12-month flagship gender program aims to catalyze the economic participation of women in the country while fostering gender parity and inclusion. IFC will spearhead the India Gender Collaborative by bringing together the World Bank, the International Labour Organization, and UN Women to highlight how integrating more women into business operations can increase companies' profitability and contribute to shared prosperity.

Bombay Chamber CHRO Summit focuses on talent management and a diverse workforce

Bombay Chamber of Commerce & Industry recently organised a CHRO Summit which had several knowledge sessions on the dynamics of talent management and the importance of building a diverse workforce in today's businesses.

The keynote speaker was Dr Adil Malia, Chief Executive of the Firm, and a Human Resources professional with versatile experience in the domains of People Management, Change Management and Leadership. Opening the session, Dr Malia said, "We live in an age of knowledge and dynamic changes of time. Talent in the changing times continues to be a sustainable advantage and also continues to be the constant challenge for MSMEs."

Bombay Chamber organises MSME Conclave; delves into major challenges for the sector

More access to finance, upgradation in technology and retaining talent are the major challenges facing MSME sector in India today. This was the underlying sentiment at the MSME Conclave organised by Bombay Chamber of Commerce & Industry recently.

Speaking at the Conclave, Ritesh Tiwari, President, Bombay Chamber of Commerce & Industry and CFO, Hindustan Unilever Ltd & Unilever South Asia said, "Today, there are over 63 million MSME's spread across our country. They contribute to nearly a third of the country's gross domestic GDP and provides for more than 40% of the country's exports. Moreover, employing ~120 million people, the sector is a major source of employment, especially in the rural and less developed areas helping reduce regional imbalance. In ~20% of the cases, MSME's are owned by women and in ~60% of the cases they are owned by socially disadvantaged groups contributing to inclusive growth for all."
