Deepesh Nanda

President of Renewables at Tata Power and Managing Director & CEO at Tata Power Renewable Energy Limited (TPREL)

Deepesh Nanda is an eminent figure with a remarkable career spanning 28 years in the energy industry. Currently, he serves as the President of Renewables at Tata Power and Managing Director & CEO at Tata Power Renewable Energy Limited (TPREL). Mr. Nanda plays a pivotal role in leading Tata Power's Renewables Business and guiding the growth of TPREL, a significant player in India's renewable energy sector. The company has an extensive portfolio of Solar and Wind power plants and possesses a strong infrastructure, including large-scale manufacturing facilities for Solar cell and module production, along with expertise in EPC, Roof Top Solar, and EV Charging solutions. Before his engagement with the Tata Group, Deepesh led General Electric's (GE) Gas Power business for South Asia, where he played a crucial role in implementing strategic initiatives to provide efficient and reliable power solutions. During his

tenure at GE, Deepesh held leadership responsibilities for the Gas Power business in South Asia and oversaw the Aero Derivative business in Asia. In these capacities, he led teams specializing in open cycle and combined cycle power plants, managing various tasks, from equipment supply to turnkey solutions and comprehensive servicing of gas turbines and associated power plant equipment. Additionally, he actively participated in project development as an equity participant and facilitated debt financing. Deepesh Nanda's extensive experience extends beyond GE, as he has made significant contributions to companies like Flowserve, Tyco, and GE. Throughout his career, he has held pivotal positions, including those in General Management as a P&L leader, CEO, and President for South Asia and Asia, respectively. Educationally, Nanda's credentials are impressive. He holds a Master of Business Administration (MBA) from The Open University Business School in the UK, with a focus on Strategy, Marketing, Organization, Finance, and Creativity. He also completed an Executive MBA sponsored by the Sanmar Group. He earned a Bachelor of Engineering in Mechanical & Production Engineering with Distinction from Annamalai University, which laid the foundation for his career. His schooling at St. Bede's Anglo Indian Higher Secondary School in India. Notably, Nanda's contributions to his alma mater, Annamalai University, were recognized with the 'Distinguished Alumnus Award' in January 2012. His exceptional achievements and contributions to the field of energy have established him as a standout leader in the energy sector.

Anirban Ghosh

Chairperson, Sustainability Committee, Bombay Chamber & Head – Centre for Sustainability, Mahindra University

Anirban has worked with the USD 20 billion Mahindra Group since 1999 where he is currently the Head- Centre for Sustainability, at Mahindra University. During his work at Mahindra as a Chief Sustainability Officer, Anirban has developed an award-winning sustainability framework, been the first in the world to commit to doubling energy efficiency, the first in the country to join

the World Bank's Carbon Pricing Leadership Consortium, commit to a carbon price and to Science Based Targets. He has helped harness more water than is consumed in the Mahindra Group and is currently striving to make Mahindra a zero waste to landfill, carbon neutral organization. Anirban has enabled Mahindra World City, a 1500-acre integrated township, to become a food waste free city, a model that is being replicated in other parts of India. He has, in partnership with the World Bank, helped create the Sustainable Housing Leadership Coalition to enable the spread of green buildings in India. Anirban has spread sustainability in communities by leading the implementation of a national award-winning watershed development project that tripled per capita income for 20,000 Indians. He has helped create an EHS+ centre, in partnership with the Institute for Sustainable Communities, to spread sustainability in the supply chain. Anirban has been an invited speaker at international events, including the COPs, the Global Climate Action Summit, The Climate Week, World Circular Economy Forum and GRI Global and featured in Al Gore's "Climate Reality Project" He has written opinion pieces for publications like Financial Times, Huffington Post, Green Biz and Eco-business, conducted sustainability sessions for students at INSEAD, Nalanda University, Indian School of Business and Indian Institutes of Management. He has been acknowledged as a "Thought Leader", a Distinguished Sustainability Officer and is the first Chief Sustainability Officer to be featured in the list of "C-Suite Sustainability Champions" published by GreenBiz.
