### PLI schemes and trade hubs reshape India's export landscape

Mumbai: India has rolled out a series of targeted measures to boost exports and reinforce domestic manufacturing, with a clear focus on MSME participation and sectoral competitiveness. The initiatives span production-linked incentives, logistics reforms, trade agreements and grassroots export hubs – forming a multi-pronged strategy to position India as a global supply chain player.

A key highlight is the Production Linked Incentive (PLI) scheme, now extended across 14 sectors including electronics, pharmaceuticals, auto components and solar modules.

### Customs duty waiver on raw cotton offers relief to textile sector

Mumbai: India's textile industry is set to benefit from a temporary exemption of customs duties on raw cotton imports, effective from 19 August to 30 September 2025. The move, announced by the Central Board of Indirect Taxes and Customs, removes the 5% Basic Customs Duty, the 5% Agriculture Infrastructure and Development Cess, and the 10% Social Welfare Surcharge previously levied on cotton imports. In total, the waiver eliminates an 11% import duty, offering immediate cost relief to manufacturers across the textile value chain. [Read more](#)

### Battery recycling clusters to reshape India's informal trade

Mumbai: India's battery recycling ecosystem is undergoing a structural shift, with the government initiating steps to integrate informal operators into the formal value chain. The Ministry of Environment, Forest and Climate Change (MoEF&CC) has stated that the Extended Producer Responsibility (EPR) framework under the Battery Waste Management Rules, 2022 is designed to incentivise formalisation by linking revenue generation to certified recycling activity. This includes the exchange of EPR certificates between producers and registered recyclers – a mechanism that excludes unregistered entities and encourages them to enter the formal system. [Read more](#)

### Micro food units gain traction under Government's demand-led scheme

Mumbai: The food processing sector in India is seeing steady traction among micro enterprises, with over 1.44 lakh units approved for support under the PM Formalisation of Micro Food Processing Enterprises (PMFME) scheme as of 30 June 2025. The scheme, administered by the Ministry of Food Processing Industries, is centrally sponsored and demand-driven – allowing eligible applicants across states to seek financial, technical and business support without regional restrictions. The PMFME scheme offers a credit-linked capital subsidy of 35% of the eligible project cost, capped at ₹10 lakh per unit. This support is targeted at individual micro enterprises seeking to upgrade or set up food processing operations. [Read more](#)
