However, the "24 months" is indicative. The exact duration will have to be determined by the selected consultant during phase 1.</p>
20	<p>General query- Kindly provide an indicative payment schedule, including associated deliverables and timelines, aligned with the overall project duration.</p>	<p>Refer to ITB 41.2 in the bidding document.</p>
21	<p>Budget Ceiling: could the client provide a budget ceiling?</p>	<p>Cannot be entertained</p>

23	<p>Complete overhaul vs update: the ToR allows both "update" and "complete overhaul," which could have major (effort) implications. Could client clarify under what circumstances a full overhaul (versus update) is expected?</p>	<p>Strategic report, RFP and technical specifications from the previous consultancy exercise for LAVIMS will be shared to the selected consultant at the start of the assignment.</p> <p>It will be up to the selected consultant to recommend the Purchaser whether the documents are still valid or new technologies and best practices are available as per the requirements of the bidding document.</p>

25	Technical architecture: Will the future turnkey vendor/bidder be expected to provide infrastructure, or software only? Has the Client predetermined hosting/deployment preferences (on-premise, government cloud, hybrid)?	The Government of Mauritius has its own preferred private cloud. However, the selected consultant needs to recommend the best way forward.
26	System Integration/Interoperability: Which external systems must LAVIMS integrate with?	The MERP from the Registration General.
27	Legacy data: What legacy systems/data repositories currently exist that are expected to migrate into LAVIMS?	The Selected consultant needs to advise
28	Deliverable approval: should we ask about review/approval timelines for submitted deliverables	Steering committee will be set up for approval.
29	Phase 3 appears underdefined and potentially high risk, not sure what question could be composed here	Phase 3 will be defined during Phase 1 and will only depends on the selected consultant.
30	Award of subsequent phases is a bit unclear: is award of the subsequent phases automatic upon satisfactory completion of prior phases?	Subsequent phases would only be applicable if the client goes ahead, at its own and sole discretion.
31	Is there a number of years of experience that could substitute for the advanced degree in one of the three specified fields for the Survey Expert, if the proposed expert has an advanced degree in a related but not exactly one of the three specified fields?	Qualification and experience would be considered during evaluation.

Yours faithfully,

Mrs B. W. Takun-Allymun
